

## **Plowman Brothers 22 August 2024**

26 members and their guests attended the visit to Plowman Brothers.

Plowman Brothers are a multi generation family owned specialist engineering and fabrication business, principally specializing in the design, fabrication and maintenance of animal transit vehicles and trailers. Their industry leading multi deck, aluminum monocoque artic trailer, design is produced entirely in house and used throughout the UK. They also convert vehicle on a one off basis to owners requirements.

The Society are very grateful to Plowman for the insight into how these vehicles are design and manufactured
